METHOD AND APPARATUS FOR SECURING FINANCING IN A LOAN TRANSACTION

Abstract of Disclosure

An apparatus and method for securing financing for a loan is provided. The apparatus and method include a loan request input module for receiving a request for the loan from a borrower. A processor is connected to the loan request input module for processing the request for the loan. A credit evaluation module is connected to the processor for determining a credit evaluation of the borrower based on the request for the loan. A loan determination module is connected to the processor and receives the credit evaluation. The loan determination module determines a first status of the loan based on predetermined criteria wherein terms of the loan are provided to the borrower when the first status has been determined. A financing solicitation module is connected to the processor for soliciting financing for the loan from investors when the first status of the loan has been determined.
